Do you want to become part of the Boulebar community?

Boulebar started as a journey through Europe. Three friends in a park somewhere among the rough alleys of Marseilles fell in love with boule pétanque. This equal sport that is so much more than just a sport. It is a way of living, thinking and being. Over generations, over a dinner and over one or more glasses of Pastis.

Now we are over 150 employees at eight Boulebars in Sweden and Denmark. And the journey has just begun.

Some might call us nerds. But it's all about love. Love of what we do. Every step of the way. Sure our demands are high, but we know that's just how you like it!
